

# Adelante Youth Mission - Misión Joven Dominicana 2020

**Thank you** for your support of Misión Joven! We could not have done all of this without your help! ~Fr. Joachim

**HOME CONSTRUCTION** - In March of 2020, 16 U.S. volunteers worked side-by-side with about 25 Dominican volunteers to construct new, clean and sturdy homes. Between the flooding at the beginning, and the COVID pandemic near the end, ten new homes were built and included new furnishings! All of this is only possible because of the generous donations received and the diligent hard work of the volunteers.

**MEDICAL CLINICS** - Thanks to the medicine & supplies from generous local U.S. donors, the medical team treated hundreds of patients! Three U.S. physicians and three D.R. physicians teamed up with us this year to distributed hundreds of pounds of mostly over the counter items that we all take for granted. We have also purchased land to build a small hospital/clinic that will be able to serve those with no access before!

**EDUCATION** - The education team focused on working in different public schools to model the most advanced methods of how to teach first and second graders how to read, bringing with them hundreds of pounds of supplies! *Reading is for a lifetime of success, growing and learning. You never unlearn how to read!*
